

VLuoi - Goi On Tap

AI & LLM Foundation (Day 1)

29 slides | 7 hoc vien hoi | 8 chu de

Ly thuyet trong tam

- Cac tang cua AI. AI la o lon nhat, bao gom Machine Learning, Deep Learning, Generative AI va LLM. LLM la tang nen cua hau het trai nghiem AI hien nay. [trang 3]
- Lich su AI 70 nam. AI trai qua cac giai oan: khai sinh, he chuyen gia \((1980)\), ImageNet \((2009)\), Transformer \((2017)\), ChatGPT \((2022)\). [trang 5, 6, 7, 8, 9]
- LLM la bo nao nen, khong phai chatbot. LLM la mo hinh ngon ngu lon dua tren Transformer, uoc luyen e oan token tiep theo. Chatbot chi la mot dang san pham ong goi quanh LLM. [trang 10]
- Vi sao model co the tra loi sai. Model bi ong bang tai ngay ngung oc \((knowledge cutoff)\), toi uu cho cau nghe hop ly khong phai su that \((hallucination)\), va context co tran de bo sot thong tin o giua. [trang 20]
- Token va Context. Model cat van ban thanh token. Context la luong chu model co the nhin cung luc, co gioi han. Context cang dai cang ton tien va cham. [trang 13, 14]
- Agent va cac muc o. Agent la LLM uoc at vao vong lam viec co muc tieu va hanh ong. Co 4 muc: Level 0 \((LLM tran)\), Level 1 \((co ket noi)\), Level 2 \((biet lap ke hoach)\), Level 3 \((oi agent phoi hop)\). [trang 23, 24]
- Temperature va Top_p. Temperature va top_p la hai num van chon tu, khong lam model thong minh hon. Temperature=0 chon tu chac nhat, T=1 can bang, T=2 de lac e. Top_p chi xem top au bang \((p=0.9)\). [trang 29]

Ca lop thuong hoi

- Giai thich noi dung slide. Slide 2 trinh bay agenda cua buoi hoc. Slide 4 gioi thieu ba nhom AI chinh: Discriminative AI, Generative AI, Agentic AI. Slide 5 tom tat lich su AI 70 nam. \((4 hoc vien, trang 2, 4, 5)\)
- Tong quan Day 1. Day 1 gioi thieu tong quan ve AI, cac tang AI, lich su 70 nam, co che LLM, agent, chon model, chi phi token, va cach goi API. \((1 hoc vien, trang 1, 2)\)
- Khai niem LLM. LLM la mo hinh ngon ngu lon dua tren Transformer, luyen tren hang nghin ty token e oan token tiep theo. No la bo nao nen, chatbot chi la lop ao ben ngoai. \((1 hoc vien, trang 10)\)
- Perceptron. Slide khong e cap en perceptron. Noi dung slide 11 noi ve co che attention trong Transformer, khong phai perceptron. \((1 hoc vien, trang 11)\)
- Phan biet ML va DL. Slide 3 giai thich: Machine Learning hoc tu du lieu thay vi viet luat tay; Deep Learning la mang no-ron nhieu tang tu hoc ac trung. DL la mot nhanh con cua ML. \((1 hoc vien, trang 3)\)
- Cac tang tri tue nhan tao. Cac tang AI tu rong en hep: AI ML Deep Learning Generative AI LLM. Moi tang la mot tap con cua tang truoc, LLM la tang nen chuyen ngon ngu. \((1 hoc vien, trang 3)\)
- Learning rate. Slide khong e cap en learning rate. Noi dung slide 2 la agenda, khong co thong tin ve learning rate. \((1 hoc vien, trang 2)\)

Cau tukiem tra

1. Theo slide, tang nao la tang nen chuyen ngon ngu, la 'tim cua lan song hien nay'?
Dap an: LLM. [trang 3]
2. Vi sao model AI co the tra loi sai du rat tu tin?
